LEAD RETURN Pb RECYCLE

Whether you need a battery for a personal carrier, aerial lift, electrical vehicle, golf car, boat, RV, floor scrubber, road sign, or any other application that requires 6-volt deep-cycle power, the DEKA PRO MASTER is the battery of choice.

The biggest innovations lie inside the battery, where we use heavier grids, plates with higher density oxide and improved glass mat envelope separators. The results? Longer life cycles and superior cycle life performance. The exterior features represent powerful thinking as well. East Penn engineers have designed a battery that is as durable and user-friendly as possible. The heavy gauge polypropylene cases have been specially engineered to take a pounding without damaging the cells. Twist-and-release vent caps make removing caps a snap, and we've maximized convenience by designing a new lifting system. The DEKA PRO MASTER BATTERY is powered for performance.

What can we power for you?

We looked at the best and made it better…A LOT BETTER!

Deka sets the standard for battery life in scrubber/sweeper applications. Over 50% longer life than the best selling battery! This means significantly lower battery replacement costs.

Our engineers went back to the drawing board to design a scrubber/sweeper battery from the ground up that will withstand the punishing demands of these applications. We've made a dozen design changes that really make the difference.

- There's a complete line of 6 and 12-volt sizes available, **wet and bone dry,** including replacement sizes for Advance, Clarke, Tennant and many others.
- New super-insulating, microporous polyethylene **envelope separators** protect the plates, eliminate short circuits and **dramatically extend battery life.**
- Positive plates are **glass wrapped,** similar to motive power industrial batteries. The glass fibers imbed themselves into the surface of the plate to **add reinforcement…**like "re-bars" in concrete. This reduces plate shredding and **extends life.**
- An **optimized balance** of the crucial **active material** on the plates means that the battery works harder and **lives longer.**
- The amount of **active material** on the positive plate has been **increased** for **added** performance and **life**.
- The manufacturing **process controls** have been **improved** for higher quality, performance and **life**.
- Even the **electrolyte** formula has been adjusted for optimum balance to extend life.
- More than **250 quality control** checks ensure the highest quality.

SCRUBBER/SWEEPER BATTERIES

COMMERCIAL BATTERIES BY PARTS PLUS

Deep-pocket envelope separators protect all sides of the plates to virtually eliminate shorting. Oversize straps reduce resistance for maximum cold cranking amps.

KEEP YOUR HEAVY-DUTY EQUIPMENT OPERATING WITH THE INDUSTRY'S TOP COMMERCIAL BATTERIES.

Demanding commercial applications require powerful, reliable batteries. Our complete line of commercial batteries is specially engineered for durability while providing all the power you need for you toughest commercial applications.

FEATURES	BENEFITS
• Premium, deep-pocket envelope separators in the most popular sizes.	• Protect plates on all four sides to dramatically increase service life.
• Most popular sizes are available with calcium-lead alloy.	• Making batteries virtually maintenance-free with longer waterless operation.
• Anchor-locked elements and tight-packed construction in popular sizes.	• Resist damaging vibration, deliver more power-per-pound.
• Commercial tough polyproplene case on most sizes.	• Resist breakage for extended service life.
• More than 250 quality control checks.	• Guarantee superior performance... *every time!*

POWERED FOR PERFORMANCE

PRO MASTER

Deka
PRO MASTER
EXCELLENT DEEP CYCLING POWER FOR ALL ELECTRIC VEHICLES.
GOLF CARS, WHEELCHAIRS, PERSONNEL CARRIERS,
FLOOR MACHINES, MARINE, AERIAL EQUIPMENT, ETC.
MADE IN U.S.A.

The DEKA PRO MASTER BATTERY will give you all the power you need to get through two rounds comfortably without needing a recharge – providing it is maintained and charged correctly.

The DEKA PRO MASTER BATTERY includes a variety of design features that allow for easy watering and installation, faster maintenance turnaround times and longer cycle life.

The DEKA PRO MASTER BATTERY is made with pride by quality craftsman in our state-of-the-art manufacturing facilities, and subjected to over 250 rigorous quality control checks during every phase of production.
